

NUTRITIONAL INFORMATION

Building on Hooters legacy of hot wings and seafood, we've been elevating the experience to the top of the food chain by evolving our menu to include a delicious selection of appetizers, fresh salads, hearty sandwiches and signature burgers. In the following you will find all the nutritional information you need on the food. Just know that one thing is for sure, having a great time with your friends is always good for the soul. It's science.

Nutrition Statement:

2,000 calories a day is used for general nutrition advice, but calorie needs vary. The nutritional analysis is comprised of data from an independent testing facility commissioned by Hooters and/or nutrient data from Hooters' suppliers, the United States Department of Agriculture and nutrient database analysis of Hooters' recipes using Genesis SQL Nutritional Analysis Program from ESHA Research in Salem, Oregon. The rounding of figures is based on Food and Drug Administration guidelines. Some menu items may not be at all restaurants; test products, test recipes, limited time offers, or regional items may not be included. While menu item ingredients information is based on standard product recipes, variations may occur due to ordinary differences inherent in the preparation of menu items, local suppliers, franchisee participation, region of the country and season of the year. Additionally, no products are certified as vegetarian. This listing is updated periodically in an attempt to reflect the current status of Hooters' products.

Allergen/Gluten Statement:

All fried ingredients are cooked in shared fryers and maybe exposed to all allergens/animal products. For this reason, guests with food allergies should avoid fried items.
